

STACKABLE PATHWAY HVAC

Entry & Exit Points

- Students can begin as an apprentice and earn their certificate in HVAC after completion.
- Students can also start in a Certificate program or an Associates of Applied Science program before applying to HVAC positions.
- Student can stack a Certificate into earning an AAS or Bachelor's Degree. This stackability can lead to a Bachelor's Degree in Engineering

Licensing Requirements

No statewide requirements for licensing. Most jobs require an EPA Section 608 Certification.
